Code: K523

## Description

Climbing frame with style referring to the shapes of a snail and vivid colors. Construction and slide are made of stainless steel which is resistant to weather conditions and intensive use. Frames and railings are ended with stylish balls so the construction looks like snail horns. The floor is made of HPL with non-slip texture. Due to this solution, the floor is soft and safe and does not heat during sunny days and it is not freezing during the winter.

Colorful playground set dedicated to young kids consists of two towers covered by roofs.

Optional in colors: orange roofs, red climbing wall, blue side of slides, bright green entrance steps, green and orange bridge and bright green entrance ramp with orange, round elements (Multicolor) or grey and brown (Nature).
