

DOMETO 2-1

Code: K521

Description

Climbing frame with style referring to the shapes of a snail and vivid colors. Construction and slide are made of stainless steel which is resistant to weather conditions and intensive use. Frames and railings are ended with stylish balls so the construction looks like snail horns. The floor is made of HPL with non-slip texture. Due to this solution, the floor is soft and safe and does not heat during sunny days and it is not freezing during the winter.

Colorful, small playground set dedicated to young kids consists of two towers covered by roof.

Optional in colors: orange roofs, red climbing walls and side of bridge, blue side of slide and bright green entrance ramp with orange, round elements (Multicolor) or grey and brown (Nature).

Playground device consists of

- 2x towers with roofs
- 1x stainless steel slide

- 1x entrance ramp with rope, banisters and round elements
- 2x climbing walls
- 2x spiral ladders
- 2x anti-slip platforms connected with each other by bridge with rope banisters
